5. Publems and Challenges

External:

- Fierce market competition
- Rapid development and advancement in telecom technologies
- Shift in business from voice business to data business as per global trends
- Negative Impact in international business due to Over The Top (OTT) applications and it's revenue
- Changes in tastes & preferences of customers and available choices in the market for customers
- Catering to fast changing customers' expectations of services as per their demands
- Decline in flow of migrant workers in key employment destinations
- Compliance of procurement rules and regulations
- The coronavirus (COVID-19) outbreak resulting in restrictions on movement has a potential impact on network uses and resiliency resulting decrease in service income.

Managing Directo

Roaming and ILD impact due to COVID-19.

Internal:

- Lengthy deployment time for expansion projects affecting improvement in quality of services.
- Delay in service deliveries and maintenance mostly in remote areas
- Impact on service expansion, recharge sales channel and necessary service maintenance.

Strategies Initiated by Management to Solve the Problems and Challenges:

- Establishing modern telecommunication infrastructures for providing quality services in all the areas of Nepal and to cater customer needs and demands.
- In order to gain competitive advantage over competitors, focus has been on new technologies such as GSM (4G, 3G,2G), FTTH, NGN, Lease line for providing customers with quality services at reasonable prices.
- Increasing Value Added Services (VAS) to cater changing customer preferences of telecommunication services.
- Installation of additional and new equipment's of wireless services in order to cater the need created by the state restructuring and several districts of Terai Region uncovered in existing network. Initiation of regular monitoring process for the optimization of existing networks of the company.
- Implementing Convergent Real Time Billing (CRTB) system for convergence of all the services of the company in order to provide one stop billing charging solution to the customers.
- Lestablishing the technology related Customer Relationship Management (CRM) in order to solve the customer queries and grievances through Call Centers, Complain Desk.
- ldentification of possible areas and implementation of outsourcing mechanism of job performance on regular basis to increase the efficiency as well as effectiveness of the services provided by the company, as per necessity.
- Providing counseling/ trainings to employees with customer focus to adopt in competitive business environment.
- Planning to introduce Enterprise Risk Management and Revenue Assurance technologies.
- Focusing on automation of business processes to reduce operation costs.
- Implementing performance based incentives for business units/ NT offices and employees
- Restructuring the organization structure as per its business need and National State/Province Structure
- The company has established the Nepal Digital Payment Company Ltd to provide mobile financial services in collaboration with Rastriya Bank to explore the new avenue of revenues.
- The company has invested in Nagarik Stock Dealer Company as an equity investment which is established in collaboration with Citizen Investment Trust and Nepal Reinsurance Company Ltd.
- The company has implemented the nationwide 4G/LTE services to cater the increasing demand of customers. These services are currently provided in all 77 districts of Nepal. Further expansion is continuing.
- The company has planned to substitute the PSTN/ADSL services to FTTH service which provides voice, data and IPTV services at a more efficient mode of transmission. The company has also initiated promotional offers to customers for the purpose of migration from PSTN/ADSL to FTTH service.
- For providing quality telecommunication services, the company is committed to build and operate optical fiber networks under RTDF grant as awarded through agreement with NTA.
- To neutralize the decreasing trend of interconnection revenue, the company has taken effective measures to maintain the revenue and it is expected that the decreasing impact on interconnection revenue will be offset from new revenue sources such as 4G/LTE and FTTH services.
- The company has introduced various low cost service data packages to meet the increased demand of customer staying at home and remote working.

6. Co porate Governance

- Citizen Charter (Nagarik Badapatra), Employees Code of Conduct, Central level Governance Unit has been in practice in order to strengthen the Corporate Governance in the company.
- Company has been providing necessary and important information to its customers along and other members of the public through its website as well as frequent media announcements in order to maintain transparency.
- In order to strengthen the internal control mechanism of the Company, a separate Internal Audit and Inspection Department has been established. The department carries out audits of various departments of the company on a continuous manner and makes necessary recommendations to the Audit Committee. Accordingly, the Audit Committee holds regular meetings to implement the recommendations thereof.
